Professional Summary

Laravel Developer with 1.5+ years of experience in backend web development using Laravel and PHP. Skilled in designing scalable backend systems, developing RESTful APIs, and working with relational databases like MySQL. Proficient in integrating front-end technologies, managing admin panels, and contributing to real-world SaaS platforms. A fast learner and team player with solid problem-solving abilities, strong communication skills, and a passion for clean, maintainable code.

Technical Skills

- Languages: PHP, HTML, CSS, JavaScript, jQuery
- Frameworks: Laravel, Bootstrap
- Database: MySQL
- Version Control: Git, GitHub
- Tools: Postman, VS Code, Composer
- Concepts: MVC Architecture, RESTful APIs, Authentication, CRUD Operations, Eloquent ORM

Work Experience

Laravel Developer

Hackberry Softtech, Ahmedabad

July 2023 – Present

- Developed RESTful APIs for Lekha Setu, a CA CRM software to support its mobile application.
- Built and maintained the admin panel for the company website, ensuring smooth content and user management.
- Contributed to a Worker Management System, implementing attendance tracking, payroll, and user role modules.
- Currently working on Digi School, a school management SaaS platform, handling modules like user access, fee management, and report generation.
- Worked on the backend and admin side of a user-focused project, focusing on data management and performance optimization.
- Enhanced skills in Laravel, MySQL, and backend architecture through real-world applications.

Internship Experience

Intern – PHP/Laravel Developer

Hackberry Softtech, Ahmedabad

Dec 2023 – June 2024

During my internship, I learned and implemented PHP and Laravel from basic to advanced levels. I completed several backend tasks including CRUD operations, API integration, and database design. I worked closely with senior developers to gain practical experience with MVC architecture, Eloquent ORM, routing, and middleware. This internship laid the foundation for my development career and improved my coding, debugging, and project understanding skills.

Education

Bachelor of Computer Applications (BCA)

Hemchandracharya North Gujarat University

March 2024 | 8.5 CGPA

Projects

- Lekha Setu – Developed APIs for mobile app functionality (CRM for CAs).
- Company Website – Built and managed the backend/admin panel.
- Worker Management System – Created modules for attendance and payroll.
- Digi School – Ongoing SaaS platform for school management.
- User Portal – Developed backend and admin features for a client project.

Languages

- English – Intermediate
- Hindi – Fluent
- Gujarati – Fluent
